

Fast charging two-way flash charging outdoor power supply

Overview

At its heart is a lithium battery with the technology of combined liquid and solid electrolytes, which has passed special safety testing. The battery itself inside also has certified protection IP67, ideal for use on the beach, for example. It has a weight of only 16,9 kg and. The station uses two-way flash charging technology, which in practice allows charging 80% capacity in 50 minutes and fully in 90 minutes. The Xiaomi MIJIA Outdoor Power Supply 1000 Pro also works great together with a portable solar panel MIJIA Solar Panel 100W, which can be purchased separately. This.
